

Optimise your office productivity

DM300™ digital mailing system with Intellilink®

Digital Mailing Solutions

MAILMARK™
READY

Maximise your office productivity

The DM Series is powered by IntelliLink® technology, they are easy to use and highly productive.

Every business needs to operate as efficiently as possible. Even daily, routine tasks need to be performed in a productive manner.

The easy-to-use, DM300™ Mailing System will amaze you with its simplicity and advanced capabilities.

The Power of IntelliLink®

The cutting-edge IntelliLink® technology contained within the DM300™ provides an easy to use secure gateway to advanced features and services. IntelliLink® gives you access to a suite of services ensuring your system is kept current and operates at maximum efficiency. These include automatic downloads of postal rate changes and software upgrades. The DM300™ also has the capability to download logos and envelope messaging transforming once manual processes into quick operations.

The Benefits of MailMark™

This product is MailMark™ compliant. Digital Mailing Solutions customers have access to all the numerous features and benefits that MailMark™ can offer such as:

- Automated tariff updates eliminate surcharges
- Cost-saving benefits and extra discounts compared to current franked mail
- MailMark™ Ready machines are network connected for faster and more frequent downloads
- Print your own Prepay Reply envelopes
- Improve your mail presentation with promotional messages
- Enhanced Postage Reporting via INVIEW™
- MailMark™ Ready systems will always update to any Royal Mail developments

Time saver

Fast, accurate postage re-crediting

IntelliLink® technology provides convenient, one-touch postage refills with PostagebyPhone®. Get up to 55 days free credit with the post now, pay later facility of Purchase Power™.

Always up to date

IntelliLink® technology provides effortless, hassle free, postal rate downloads and software updates. With IntelliLink® technology you can be sure that your equipment is always up to date.

Easy to use

All controls are fully integrated on one clear easy to use control panel with user-friendly instructions to guide the operator through each stage of processing mail.

Reduced mail preparation time

Seal and frank your envelopes at the same time, resulting in a professional ready to mail document. Larger mail is quickly processed with self adhesive tape strips. Time is saved with five presets for your most commonly used jobs.

Auto-Dating eliminates returned mail due to misdating

An internal clock advances the date automatically. Operators can advance the date to get a head-start on processing tomorrow's mail.

Incoming mail dating

Date and time stamping capability ensures your incoming mail is handled efficiently by providing the option of recording when it arrived.

Handle rate changes easily

IntelliLink® technology allows postage rate changes to occur automatically, reducing the risk of Royal Mail surcharges from using correct prices.

Digital technology is a gateway to the future

The DM300™'s digital meter satisfies all current postal regulations, and the technology's flexibility makes the DM300™ adaptable for the future.

Franking discounts

With a franking machine you'll receive a discounted price compared to stamps. There's discounted prices for first and second class mail plus Royal Mail Signed For, Special Delivery and International Airmail.

Cost saver

Correct value postage – every letter, every time

The DM300™ incorporates a 5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value. There are also options for 7kg, 12kg and 35kg interfaced weighing platforms. Differential weighing technology enables batches of mixed mail to be processed quickly and efficiently. The differential mail feature means that a collection of mail can be placed on the scale and the machine will calculate the correct postage for each mail piece as it is removed from the pile.

Information management

It's crucial for businesses to account for postage expenses. Departmental or client postage spend can be easily tracked and reported with the 100 accounts available on the DM300™. The data is uploaded automatically to INVIEW™ Postage reports, allowing to analyse the postage data via the internet from anywhere, whether you are in the office or working from home.

Strengthen your brand with targeted and effective mailing

Transform your mail piece into eye-catching communications. Advertise your business on every mail piece with sharp inkjet printing to build your professional image. Print a return address or message alongside your customised slogan to ensure undelivered mail is returned thus improving the accuracy of your mailing database and ultimately reducing expenditure on subsequent mail shots. These are easily entered via a built-in qwerty keyboard.

More than letters...

The DM range of franking machines from provides a gateway to a wide range of Royal Mail postal services, a selection of which is shown below:

Special Delivery™ – Have you got an item that needs to be delivered urgently? Or maybe you're sending something valuable? With the Special Delivery Next Day™ service not only will your item reach its destination on time, you can also rest easy, knowing it can be insured for up to £2,500. When your item absolutely has to get to its destination on time there's Special Delivery 9.00am™ and there's also Special Delivery with Saturday Guarantee which guarantees next day delivery for items posted on a Friday, even though it's a Saturday.

Royal Mail Signed For™ – If you have important documents to send and want to check on delivery, Royal Mail Signed For™ fits the bill. With proof of posting, signature on arrival and online tracking, your delivery is easy to trace.

FrankPay – FrankPay gives any franking machine user access to all domestic and international Parcelforce services via the web and lets them pay via their franking equipment.

Airsure® – For a fast, secure and reliable service to destinations worldwide, look no further than Airsure. Your item will receive priority handling at home and overseas, and benefit from an online tracking facility so you can check your mail's progress along the way.

BusinessMail Advanced – If you produce at least 500 letters for delivery within the UK and you can prepare your mail so Royal Mail's automated technology can read and verify the address and postcode, you can obtain a discount from the standard tariff price. (Please ask your Digital Mailing Solutions Account Manager to explain how we can help you meet these requirements).
